

2008 Bianchi Transponder Key Application Chart

Please note: All vehicle make, model and years listed in this application chart have a Bianchi or a Bianchi R/W key available except where noted. Listed manufacturer part numbers are for comparison reference only. If there is not a part number listed for another manufacturer, either there is no direct known comparable key available or it is not interchangeable with the Bianchi or Bianchi R/W key listed.

MAKE, MODEL	YEAR(S)	BIANCHI	BIANCHI R/W	EZ	EZ R/W	STRATTEC	STRATTEC R/W	JET	JET R/W	OBP	KEYWAY
Oldsmobile Aurora	2001-2003	BB99-PT	BB99-PT5	B99-PT	B99-PT5	690898	692065	B99-PHT	B99-N-PHT	A	B86
↑ Vehicle Make & Model	↑ Model Year(s)	↑ Bianchi Key	↑ Bianchi R/W Key	↑ Ilco Cross Reference	↑ Ilco R/W Key Cross Reference	↑ Strattec Cross Reference	↑ Strattec R/W Key Cross Reference	↑ Jet Cross Reference	↑ Jet R/W Key Cross Reference	↑ On-Board Programming Procedure (if applicable)	↑ Keyway

Keys listed in these columns are called R/W (Read/Write) transponder keys or clonable transponder keys. These keys require an existing working key to the vehicle and a transponder programming tool such as the Repli-Code 7 TX to program the R/W key to the vehicle. All keys in the Bianchi R/W column are compatible with the Bianchi Repli-Code 7 TX.

Transponder Key Application Chart Legend

†= These Camry model years require a transponder read before determining key blank; insert existing key into Repli-Code 7 TX; if 'Texas TX00' displays, use BTK24 with BTOY43U; if 'Texas Crypto 1 TPXX' displays, use BTK40 with BTOY43U

*= These vehicles have an optional transponder system for some or all of the years listed

**= These GM make and model years use two possible key blanks; check profile of original key blade to determine correct replacement key

(IKT) = Integrated Key Transponder, which is the technical term for Ford remote head keys

PLEASE NOTE: Ford remote head keys require a transponder read before programming. Insert existing key into Repli-Code 7 TX; if "Texas Crypto 1 TC08" displays, key can be programmed. If "Texas Crypto 3 TC06" displays, key CANNOT be programmed with Repli-Code 7 TX.
